PUBLIC SCHOOLS

Remote Learning Discipline Procedures

While Montgomery Public Schools (MPS) are working in a remote platform, parents and teachers must work together on discipline. MPS does not or cannot foresee any discipline issues, however, they are possible. Each disciplinary infraction will be handled on a case by case basis. If any rules are broken, the student will not be able to participate in the remote learning environment until a parent/teacher/administrator remote conference is held. This should take place within 24 hours of the infraction.
